EXPERIENCE

CTS, The Netherlands – *APP. MODERNISATION LEAD*

JANUARY 2021 – PRESENT

- I led a strong multinational and distributed Development Team to help our customers in the Netherlands and in the UK.
- I contributed to the Pre-Sales activities as part of the Architect Team to create modern, cloud native solutions.
- I supported the leadership team with scheduling, mentoring and leading the development team.

Accenture, The Netherlands – *AWS CLOUD ARCHITECT/SR. SOFTWARE ARCHITECT*

APRIL 2019 – JANUARY 2021

- I led the AWS Practice in the Netherlands.
- I assessed several assessments and systems written with a variety of languages such as C#, Python, NodeJs and evaluated their cloud readiness.
- I helped internal teams with their pre-sales activities.

ASML, The Netherlands – *Software Design Engineer*

MAY 2018 – APRIL 2019

- I work in a multinational Agile team to build the new pioneering Multi-Beam Inspection machine.
- I encourage and support the team for the Test-First approach by implementing TDD.
- With the expertise on C# and .Net Framework, I mentor/guide other developers who have domain knowledge but unfamiliar with C#.

Accenture, Turkey – *SOFTWARE DEVELOPMENT LEAD / PROJECT MANAGER*

AUGUST 2013 – MAY 2018

- Agile Champion of Turkey
 - As the Agile Champion of Turkey; I was responsible for propagating and coach project teams to use Agile
 - As the primary Faculty, I delivered numerous training for the whole company.
- Retail Company – E-Commerce Project

- I built a development team of 12 developers.
 - As the Technical Lead, I worked on the field with the development team.
 - I mentored and guided the team to split the monolithic legacy application to microservice with C# and Kong Gateway.
 - I worked with client architects to build a roadmap to move the application to the cloud.
 - I used C#, MVC, WEB API, MSSQL, RabbitMQ, Redis
- Global Beverage Client – Technical Integration Project
 - As the Technical Lead and Lead Architect; I built a flexible development team (using our NearShore office) between 5-10 developers depending on the need.
 - I migrated 30+ applications to the AWS ecosystem.
 - I built applications and APIs by introducing TDD approach.
 - I used AWS EC2, SQS, SES, C#, MVC, Angular JS, WEB API, MySQL.

Mikatur, Turkey – SOFTWARE DEVELOPMENT LEAD / PROJECT MANAGER

FEBRUARY 2013 – AUGUST 2013

- I built a team of 7 developers to re-platform the existing monolithic application.
- I guided and mentored the team to create Microservices with .Net Framework.
- I used C#, MVC, WEB API, MySQL.

Phonoclick, Turkey – SENIOR SOFTWARE DEVELOPER

FEBRUARY 2012 – FEBRUARY 2013

- Development of a SaaS CRM application with native AWS Services using .Net Framework and MySQL.
- Planning the roadmap, releases and sprints by working with the Business Development team.
- I used AWS EC2, SQS, SES, C#, MVC, MySQL.

Accenture, Turkey – INTEGRATION LEAD

APRIL 2011 – FEBRUARY 2012

- Integration lead in Turkey of an offshore team in India.
- Design the integration layer and ensure the high quality of build by working with the client technical architects.
